

# Return to Operations Safely and Sustainably

The Precision Medicine Approach to COVID-19 Testing

## When Your Organization Needs a Real-time Decision Support System

Analyzing your employee or student population for an effective return to operations goes beyond COVID-19 testing to include enterprise-wide risk analysis, planning, and implementation. With Coriell Life Sciences' Return-to-Operations Program, you get the Power In Knowing™ exactly when it's time to return and how to keep your organization running safely. **The program incorporates the necessary components to reopen by combining insight from:**

- Health History
- Organizational Demographics
- COVID-19 Progression
- Individualized Hazard Exposure
- Organizational Priorities

## Program Benefits

- ✓ Clear answers as to which facilities to reopen and when
- ✓ Significantly reduced costs by knowing how to test, who to test, and when to test
- ✓ Understanding of who is most at risk and how to protect them
- ✓ Minimized likelihood of unreported infections
- ✓ Reduced risk of future business disruption
- ✓ Action plan if someone tests positive
- ✓ End-to-end implementation including member engagement, communication, and logistics
- ✓ Comprehensive change enablement communications plans provide ongoing support to returning employees and students

## How It Works

### 1 ANALYZE ORGANIZATIONAL DATA BY INDIVIDUAL

- ✓ Location of residence
- ✓ Location's infection rate
- ✓ # of household members
- ✓ Household members' occupations
- ✓ Known medical conditions & diseases
- ✓ Reported symptoms
- ✓ Previous test dates & results

### 2 RUN RISK VECTOR ENGINE

### 3 DETERMINE COVID-19 RISK SCORES & ACTION PLANS BY INDIVIDUAL

**Individual can continue normal activity and does not require testing at this time** ✓

**Individual should be tested now** ✗

### 4 REAL-TIME DECISION SUPPORT TOOL

- ✓ Individual employee status tracking
- ✓ Employees mapped against updated disease progression
- ✓ Risk tolerance modeling in real-time
- ✓ Progress at the Business Objective level
